# Using This Product

## New Features

The following list covers DefendX Software Vision new features:

- Database maintenance page issue - Server names for purged servers are still displayed in the server selection
- Database maintenance page descriptions update to reflect the functionality better
- Database maintenance - Scheduled requests are no longer killed if they run for longer than 1 day
- AD Agent issue - AD Agent servers will no longer show up on the database maintenance page
- File age processing was re-architected and is now 4x faster per file
- TLS 1.1/1.2 support for all component installers (For the Reports/Admin installer the Microsoft ODBC Driver 11 or greater must be installed prior to the installer being run in order for DSNs to be created properly on systems with TLS 1.0 disabled. If TLS 1.0 is enabled then this is not a requirement).
- TLS 1.1/1.2 support for the Active Directory Agent
- Rebranded to DefendX Vision
- Redesigned SSRS Reports Pack site
- Generic Agent replaces the Isilon Agent. The Generic Agent allows for the specification of multiple shares to scan.
- Changed default FPolicy sequence number to 4

## Bug Fixes

The following list covers DefendX Software Vision bug fixes:

- FR-365 – Quota reports missing managed folders
- FR-364 PreferredPort registry setting does not work for NetApp C-mode filers
- FR-363 Aging bucket totals are not accurate
- Active Directory Agent Fix. SQL provider was not determined before connecting to the database.
- Admin Site - Radio buttons on volumes, users, and directories tabs not enabling the 'Add' button to add an item to the list of items to be included.
- Admin Site - Home page Windows configurations grid sorting issue
- Admin Site - Database maintenance status page refresh button fix
- Admin Site - Reset button while editing a configuration in the Data Agent Admin site throws an error
- Reports Site - Quota reports now support QFS on Isilon (Vision Generic Agent with QFS for Isilon)

## About DefendX Software

DefendX Software helps organizations secure their critical business files and maximize the value of their enterprise file storage resources. From comprehensive intelligence, modeling, costing and chargeback to seamless file movement, protection and archiving, DefendX provides industry-leading capabilities to eliminate waste and align the value of files with the storage resources they consume. With DefendX, important file locations and the users who access them can be monitored to provide governance, protect against theft and enforce compliance policies. For more than 20 years, DefendX Software has been helping public and private sector customers around the world save money and eliminate risk every day.

## DefendX Software Professional Services

DefendX Software's Professional Services offers consulting, training, and design services to help customers with their storage management challenges. We have helped hundreds of customers to implement cost-effective solutions for managing their storage environments. Our services range from a simple assessment to in-depth financial analyses.

For further assistance in creating the most cost-effective Storage Management Infrastructure, please contact your DefendX Software Representative at 800-390-6937.
